NOVEMBER 5 | Thursday | 1 - 2:30 p.m.

GMO mosquitoes have been released into the wild to try to control the spread of mosquito-spread viruses. What are the risks and benefits involved? We will define what it might mean to be called genetically-modified and discuss different types of genetic modifications and their potential risks and benefits. You might be surprised what you already know (and don't know) about GMOs.

FRIDAYS | 9:30 - 11 a.m.
\$15 for all 5 sessions

► **FRIDAY, SEPTEMBER 4**
Pandemic 1918
by *Catharine Arnold*

Before AIDS or Ebola, there was the Spanish Flu. In January 1918, as World War I raged on, a new and terrifying virus began to spread across the globe. In three successive waves, from 1918 to 1919, influenza killed more than 50 million people. German soldiers termed it Blitzkatarrh, British soldiers referred to it as Flanders Grippe, but world-wide, the pandemic gained the notorious title of Spanish Flu. Nowhere on earth escaped: the United States recorded 550,000 deaths while European deaths totaled over two million. Even as entire battalions were decimated, with both the Allies and the Germans suffering massive casualties, the details of many servicemen's deaths were hidden to protect public morale.

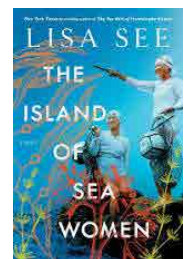

► **FRIDAY, OCTOBER 2**
White Fragility
by *Robin DiAngelo*

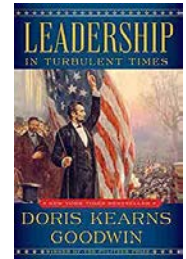

This book explores the counter-productive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. The author illuminates the phenomenon of white fragility and helps us to understand racism as a practice. Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. The book examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively..

► **FRIDAY, DECEMBER 18**
The Island of Sea Women by *Lisa See*

Mi-ja and Young-sook, two girls living on the Korean island of Jeju, are best friends that come from very different backgrounds. When they are old enough, they begin working in the sea with their village's all-female diving collective known as Haenyo, led by Young-sook's mother. As the girls take up their positions as baby divers, they know they are beginning a life of excitement and responsibility but also danger. The Island of Sea Women is an epoch set over many decades, beginning during a period of Japanese colonialism in the 1930s and 1940s, followed by World War II, the Korean War and its aftermath, through the era of cell phones and wet suits for the women divers.

► **FRIDAY, NOVEMBER 6**
Leadership in Turbulent Times
by *Doris Kearns Goodwin*

The author draws upon the four presidents she has studied most closely--Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt, and Lyndon B. Johnson--to show how they recognized leadership qualities within themselves and were recognized as leaders by others. This book tells the story of how they all collided with dramatic reversals that disrupted their lives and threatened to shatter forever their ambitions. At moments of great challenge, they were able to summon their talents to enlarge the opportunities and lives of others. Does the leader make the times or do the times make the leader? In today's polarized world, these stories of authentic leadership in times of apprehension and fracture take on a singular urgency.

► **FRIDAY, DECEMBER 4**
The Splendid and the Vile
by *Erik Larson*

An intimate chronicle of Winston Churchill and London during the Blitz—an inspiring portrait of courage and leadership in a time of unprecedented crisis. Adolf Hitler invaded Holland and Belgium. Poland and Czechoslovakia had already fallen, and the Dunkirk evacuation was just two weeks away. For the next twelve months, Hitler would wage a relentless bombing campaign, killing 45,000 Britons. It was up to Churchill to hold his country together and persuade President Franklin Roosevelt that Britain was a worthy ally—and willing to fight to the end.

NOVEMBER 6 | Friday | 1 - 2:30 p.m.

The New York Historical Society presents the rock & roll world of Bill Graham (1931–1991), one of the most influential concert promoters of all time. Bill Graham and the Rock & Roll Revolution explores the life and work of the legendary music impresario who worked with the biggest names in rock music—including the Grateful Dead, Jefferson Airplane, Jimi Hendrix, Santana, Led Zeppelin, and the Rolling Stones—and launched the careers of countless music luminaries at his famed Fillmore Auditorium in San Francisco and the Fillmore East in New York City. A docent will lead you through the exhibition live on Zoom.

DAY of GIVING
FRESNO STATE **D.O.G.**

Fresno State's Day of Giving is November 17

Gifts to OLLI are accepted at any time, and especially on the university's Day of Giving. The Fresno State OLLI is a vital and vibrant part of our member's lives and our region.

Your support helps us continue to inspire our community of learners who are dedicated to thriving in life's second half. Our program is self-supporting and we receive no funding from the university, counting on members and sponsors to continue our program.

As a donor to the Fresno State OLLI, you make lifelong education possible, the university greater and our community stronger. No matter how big or small, every gift truly matters.
