

Blackboard Mobile Learn App

Using the Blackboard Mobile Learn app will allow you to access your Blackboard course content from a mobile device but may be limited in the full functionality of some Blackboard features. It is still recommended to access Blackboard on a computer with a browser.

The following table displays the tested and verified features conducted by Technology Innovations for Learning & Teaching (TILT). This table will be updated as further features are released and tested.

Tested and verified

Tested and verified with possible issues

	iOS 5 (Wifi on iPad 2)	Android 3.2 (Wifi on Galaxy Tablet)
