

## BLACKBOARD 9.1 BEGINNING OF THE SEMESTER CHECKLIST

---

### EDIT MODE

The Edit Mode toggle allows a user to change the way they are viewing the content on the screen. Switching the **Edit Mode ON** allows users with certain Roles in the system to add, delete, and edit content and tools in the Course. Switching the **Edit Mode OFF** displays the Course as students would see it. The Edit Mode toggle will only appear to those users who have permission to use it.

### BLACKBOARD COURSE SHELLS

Official course shells are automatically generated for all courses approximately six weeks before the start of a new semester. If you would like a development course shell so that you can start building your course, please fill out the **Development Course Request Form** found in the Faculty & Staff section under Forms on <https://blackboard.fresnostate.edu>. **Note:** You will have to copy your development course shell into your official course once it is created.

### WORKING WITH FILES IN BLACKBOARD

Blackboard does not fully support use of special characters in file names. When naming files to be uploaded into Blackboard, please **do not** include any special characters such as #, %, & or spaces. **Only use letters, numbers, and underscores.** All files must have a correct extension (.docx, .rtf, .pptx, .pdf, etc.) in order for them to open in Blackboard.

### COPY COURSE

1. Enter the course you want to copy content from.
2. Select **Packages and Utilities** in the **Control Panel** area of your existing course.
3. Select **Course Copy**.
4. In the **Select Copy Type** area, select **Copy Course Materials into an Existing Course**.
5. Click **Browse** to **locate the Destination Course ID**.
6. **Search** by Course ID, Instructor or Name/Description to access your course list.
7. **Select** the button next to the **Destination Course ID** of the course you want to copy the content to.
8. Select the items you would like to copy and click **Submit**.

An email will be sent once the Course Copy task is complete. Once this email is received, check the destination course to verify that the selected materials were copied successfully from the original course. You will also see a message in yellow at the top of the destination course once the course copy is complete.

## CHECK THE COURSE MENU

Confirm that the Course Menu consists of the buttons or links that you wish to use. If necessary, rename or modify the list of buttons. Make sure and check the Course Menu with **Edit Mode ON**. Instructors have direct access to edit and organize the Course Menu and may use the drag and drop feature to change the order of menu items. Course Menu items that do not contain any content are automatically hidden from student view but are visible to the instructor while in Edit Mode.

1. In the upper right-hand corner, select **Edit Mode ON**.
2. To add a new link to the Course Menu, click the “+” and select the area you want to add.
3. **Rename, Hide** or **Delete** links as necessary. When you point to an item you wish to edit, the action link will appear to the right of each item allowing you to edit. **Note:** If you remove a menu item, all information within that area is removed permanently.
4. Organize your course menu using the drag and drop feature, which appears when pointing to an item. For longer course menus you may want to consider creating Subheaders and Dividers by clicking on the “+” icon and selecting these features.

## SELECTING A COURSE STRUCTURE

Course structures are predefined course materials such as Course Menu links, instructions, and content examples that you can add to your course to begin the design process quickly.

When selecting a Course Structure, keep in mind the following information:

- A selected course structure’s content is added to your course and does not replace existing menu items and content in your course.
- A selected course structure's links appear at the top of your Course Menu.
- You can edit or delete course structure content in the same way as other created or imported content.

- The optional content examples are guidelines for creating your own course material. This content is set to unavailable so that students cannot view it.

IMPORTANT! Adding a course structure does not replace existing Course Menu items and content. The course structure's content is added to the existing content and Course Menu in your course, and you have the ability to edit. You are **not able** to default back to your original structure once you select a new one, you will need to manually edit the links.

To Select a Course Structure:

1. Select **Customization** in the **Control Panel** area of your existing course.
2. Select **Teaching Style**.
3. In the **Select Course Structure** area, select the name of the Course Structure you would like to use in one of the five focus areas, *Activity, Communication, Content, System or Time*.

teaching. Once a test student is added to a course, the instructor can log into the course **THROUGH THE NON-FRESNO STATE OR COMMUNITY USERS LINK LOCATED UNDER THE REGULAR BLACKBOARD LOGIN**. You will not be able to login as a Test Student through the regular login area.

Note: please do not share this account with others because they will gain access to ALL the courses associated with this test student. This account should only be used to test your course as a student. Please do not use this account for guest users or official course records.

## COMBINING COURSE SECTIONS

To request that course sections be combined into one course and the enrollments merged, complete the **Combine Course Request Form** found in the Faculty & Staff section under Forms on <https://blackboard.fresnostate.edu>.
