

ABSTRACT

SOMETHING MORE THAN TONGUES

The following compilation is a collected work of poetry. It is comprised of three bandit sections. The first of these sections is entitled “Tongues and Reveries,” in which all the poems are sexually or romantically oriented. Proceeding is “Chasms,” with a theme of loss and abandonment. The series culminates with a final section entitled, “Something More Than Tongues,” connoting that which moves beyond the physical and into the metaphysical or spiritual realm. In its entirety, the collection illustrates a very humane progression: from love, to loss, to enlightenment.
