Traditional (less than 24)	99%	51%	99%	48%	92%	63%	94%	69%

^a Response rate (number of respondents divided by sample size) is adjusted for non-deliverable mailing addresses.

^b Oversampled students are included in institution numbers upon request but not in consortium, Carnegie, or NSSE 2005 sample numbers.

^c Sampling error is an estimate of the margin by which the 'true' score for your institution on a given item could differ from the reported score. To interpret the sampling error, assume that 60% of your students reply "very often" to a particular item. If the sampling error is +/-5%, then the true population value is most likely between 55% and 65%.

^d Each number represents the percent of total respondents within the category.

National Survey of Student Engagement

NSSE 2005 Selected Peer Institutions
California State University, Fresno

This report displays the 2005 comparison institutions for California State University, Fresno. The institutions listed below are represented in the 'California State' column of the Respondent Characteristics, Mean Comparisons, and Frequency Distributions reports.
