This spring, IRAP surveyed students who applied for graduation. If we asked anyone at Fresno State who positively influenced their success, if so, who was that person and how did they help? 444 students named 317 faculty and staff members. What did these people do that garnered student praise? They: 

- "motivated me to work hard," 
- "inspired me to be successful,"
- "believed in me," 
- "pushed me to do my best," 
- "instilled confidence in me," 
- "helped me stay on track," 
- "challenged me to l"
