CHECKLIST FOR A COURSE SYLLABUS

Syllabus includes:

☑ Catalog description
☑ Contact information for academic department
☑ Contact information for the instructor including office hours
☑ Textbook information
☑ Outcomes or learning objectives (based on Bloom's Taxonomy)
☑ Course policies and procedures
☐ Attendance policies and student study expectations
☑ Course grading policies
☑ Required syllabus policy statements
☑ Complete course schedule
☐ Email protocol
☐ Discussion board policies including frequency, content and netiquette, if applicable.
☑ A statement regarding SafeAssign, if applicable

Syllabus clearly reflects delivery mode:

☑ online
☐ multi-mode/hybrid
☐ face-to-face

Syllabus is in an accessible format including:

☐ Appropriate Headings used
☐ Alternative Text on all images
☐ Tables ‘Repeat Header Rows’
☐ Tables replace Tabs

The Technology Innovations for Learning and Teaching (TILT) department has reviewed the syllabus for the following course and found that it meets the qualifications for an accessible document and aligns with the above checklist.

Course Name & Number: GEOG 203 Land Use Regulation, Law and Ethics

Proposal to Change Mode of Instruction to Online for Multi-mode (Hybrid) and Web-Based Courses

Date: 10/14/13

Department: Geography  Subject and Catalog Number: Geog 203

Does this proposal apply to a particular Faculty Member: yes  x  no

If yes, please provide Faculty Member Name: Hongwei Dong

Check appropriate structure:  x  Web-based  □  Multi-mode

If regular class meetings are held (classroom hours greater than zero), the course is defined as "multi-mode." If no classroom hours exist other than orientation and exams, the course is defined as "web-based."

Requested reduction in classroom hours: From: ______ hrs/wk  To: ______ hrs/wk

Please be aware that, in consultation with your department chair, your classroom is likely to be reassigned to another course during hour(s) it is not in use.

Attach the course syllabus and indicate how the course will be structured to ensure that the expected student learning outcomes and student workload are equivalent to those for face-to-face instruction. Use additional pages as needed. A syllabus in compliance with APM 241 will generally suffice with brief explanatory comments regarding outcomes and workload.

Plans for offering course in this format: 1 sections per semester.

The final examination / culminating experience will be given

**Catalog Description of the Course**

Introduction to basic issues of urban housing, community development, and economic development; the role of public policy in the above fields; market approaches to tackling issues in the fields; review and critique of urban renewal/housing programs.

**Course Objectives**

The objectives of this course are to provide students with a comprehensive introduction of current community and economic planning concepts, issues, processes, and policies within a broad city planning and development framework.
Primary Learning Outcomes
Upon successful completion of this course, students should be able to:

1. Formulate basic concepts and theories about community and economic development.
2. Develop analytical skills in community and economic planning.
3. Apply critical reasoning and skills to understand and implement community development programs and process.
4. Evaluate the history and context of community development.

Course Organization
This course will be provided fully online. Home assignments and handouts are going to be uploaded to the “Course Documents” section on Blackboard. Students are expected to upload their homework to Blackboard or email it to the instructor.

Prerequisites
None

Required Textbooks and Materials

Examinations
There will be one mid-term exam and one final exam. Students will take exams online. The exams will be composed of short answers and essay questions. Both exams are based on the textbook and the lecture. The final exam will be comprehensive.

It is not recommended to access and take tests/quizzes through the Blackboard Mobile Learn app.

If you miss the final exam, you will receive a zero on that exam unless you have had an emergency documented by a dated doctor’s note, accident report, or other written confirmation of the situation attesting to your inability to make it to the final exam.

Writing Assignment
In this assignment, students will be required to:

1. Find a community in the San Joaquin Valley, California (e.g. downtown Fresno or Clovis, or any local neighborhood you are familiar with) and identify a community development issue that you are interested in.
2. Visit and observe the community and talk to residents and/or visitors there formally or informally regarding the planning problem you are interested in.
3. If possible, take some pictures that are relevant to the problem.
4. Write a 3000-word minimum paper in two phases.

In the first phase, students are required to turn in a 1000-word paper that covers:
1. a brief description of the community;
2. the community development problem identified;
3. why this problem is important or interesting;
4. relevant literature on the problem.

The first phase paper will be returned quickly. If the instructor finds the community or the problem identified inappropriate or irrelevant, the student will be asked to re-find a community or a planning problem, and re-submit the paper.

In the second phase, students will revise their first phase papers based on faculty comments and expand their first phase papers by adding the following three sections: 1) the cause of the problem your findings; 2) and/or solutions to the problem; 3) a conclusion or summary.

Writing assignments turned in after the beginning of class on the due date will be penalized 10% for each day late.

**Study Expectations**
It is usually expected that students will spend approximately 2 hours of study time outside of class for every one hour in class. Since this is a 3-unit class, you should expect to study an average of 3 hours outside of class each week. Some students may need more outside study time and some less.

For free tutoring on campus, contact the Learning Center (http://www.fresnostate.edu/studentaffairs/lrc/) in the Collection Level (basement level) of the Henry Madden Library. You can reach them by phone at 278-3052.

**Participation Standards**
Students will be required to participate in discussion boards. Each student will need to post at least one discussion question or response to the questions posted by other students or the instructor. Grading on participation will be based on the participation in discussion boards.

**Grading**
As listed below, 300 points are the maximum number of points you can accumulate in this class:

**Make-up Policy**

Writing assignments turned in after the beginning of class on the due date will be penalized 10% for each day late.

Attendance on the exam date is mandatory. If you miss an exam, you will receive a zero on that exam unless you have had an emergency documented by a dated doctor’s note, accident report, or other written confirmation of the situation attesting to your inability to make it to the exam.

**Course Policies & Safety Issues**

Student can contact the instructor by email or phone. Student should include Geog 203 in the subject line of their emails. Online communication guidelines should be thoroughly explained.

**Course Assignments and Files.** Students must keep a copy of their submitted materials (e.g. emails, discussion postings, assignments, etc.) as part of their coursework. Students are fully responsible for the timely re-submission of their work upon the instructor’s request.

Blackboard does not fully support use of special characters in file names. When naming files to be uploaded into Blackboard, please **do not** include any special characters such as #, %, &, or spaces. **Only use letters, numbers, and underscores.** All files must have a correct extension (.docx, .rtf, .pptx, .pdf, etc.) in order for them to open in Blackboard.

**Plagiarism Detection:**

The campus subscribes to the SafeAssign.com plagiarism prevention service through Blackboard, and you will need to submit written assignments to SafeAssign.com. Your work will be used by SafeAssign.com for plagiarism detection and for no other purpose. The student may indicate in writing to the instructor that he/she refuses to participate in the SafeAssign.com process, in which case the instructor can use other electronic means to verify the originality of their work. SafeAssign.com Originality Reports WILL be available for your viewing.

For information on the University’s policy regarding cheating and plagiarism, refer to the Class Schedule (Legal Notices on Cheating and Plagiarism) or the University Catalog (Policies and Regulations).

**University Policies**

**Students with Disabilities:** Upon identifying themselves to the instructor and the university, students with disabilities will receive reasonable accommodation for learning and evaluation. For more information, contact Services to Students with Disabilities in the Henry Madden Library, Room 1202 (278-2811).
Honor Code: “Members of the CSU Fresno academic community adhere to principles of academic integrity and mutual respect while engaged in university work and related activities.” You should:

a) understand or seek clarification about expectations for academic integrity in this course (including no cheating, plagiarism and inappropriate collaboration)

b) neither give nor receive unauthorized aid on examinations or other course work that is used by the instructor as the basis of grading.

c) take responsibility to monitor academic dishonesty in any form and to report it to the instructor or other appropriate official for action.

Instructors may require students to sign a statement at the end of all exams and assignments that “I have done my own work and have neither given nor received unauthorized assistance on this work.” If you are going to use this statement, include it here.

Cheating and Plagiarism: "Cheating is the actual or attempted practice of fraudulent or deceptive acts for the purpose of improving one's grade or obtaining course credit; such acts also include assisting another student to do so. Typically, such acts occur in relation to examinations. However, it is the intent of this definition that the term 'cheating' not be limited to examination situations only, but that it include any and all actions by a student that are intended to gain an unearned academic advantage by fraudulent or deceptive means. Plagiarism is a specific form of cheating which consists of the misuse of the published and/or unpublished works of others by misrepresenting the material (i.e., their intellectual property) so used as one's own work." Penalties for cheating and plagiarism range from a 0 or F on a particular assignment, through an F for the course, to expulsion from the university. For more information on the University's policy regarding cheating and plagiarism, refer to the Class Schedule (Legal Notices on Cheating and Plagiarism) or the University Catalog (Policies and Regulations).

Computers: "At California State University, Fresno, computers and communications links to remote resources are recognized as being integral to the education and research experience. Every student is required to have his/her own computer or have other personal access to a workstation (including a modem and a printer) with all the recommended software. The minimum and recommended standards for the workstations and software, which may vary by academic major, are updated periodically and are available from Information Technology Services (http://www.fresnostate.edu/adminserv/technology/) or the University Bookstore. In the curriculum and class assignments, students are presumed to have 24-hour access to a computer workstation and the necessary communication links to the University's information resources."

Disruptive Classroom Behavior: "The classroom is a special environment in which students and faculty come together to promote learning and growth. It is essential to this learning environment that respect for the rights of others seeking to learn, respect for the professionalism of the instructor, and the general goals of academic freedom are maintained. ... Differences of viewpoint or concerns should be expressed in terms which are supportive of the learning process, creating an environment in which students and faculty may learn to reason with clarity and compassion, to share of themselves without losing their identities, and to develop and understanding of the community in which they live ... Student conduct which disrupts the learning process shall not be tolerated and may lead to disciplinary action and/or removal from class."
