

**Dear STEM Education Colleagues,**

The kick-off meeting of the Central California STEM Collaborative (CCSC) on October 30 was a great success! Photographs, a list of meeting attendees, the agenda, and brief speaker bios are contained in this Dropbox file: <http://tinyurl.com/CCSS-files-photos>

We are looking forward to our next network meeting, which will be hosted by **Reedley College** from 4-7 p.m. on January 23 (working dinner included).

**On the agenda:**

- STEM @ Reedley College
- Partnerships with Thiele Technologies
- Dr. Jerry Valadez with the SAM Academy
- Setting the goals and mission as the Central California STEM Collaborative

We would also like to encourage you to email upcoming regional STEM-related workshop/conference/event links and information to Alyssia Aguilar so that she can post them on a calendar that she is developing on our new CCSC webpage at <http://tinyurl.com/CentralCaliforniaSTEM>

**Register for the  
January 23 meeting:**
