

Kids 6 -17. . . join us for
Summer 2015
Science & Arts Young Maker Camps

Science, Art & Making Camps July 6 to August 7, 2015

Coding/Robotics Camps July 20 to August 14

750 N St., Sanger, California
(next door to the Sanger Herald)

Kids will have fun and learn in unique one-week camps with a focus on science and engineering projects, visual art projects, making and music classes designed by SAM Academy in Sanger, a Young Maker program that offers science, art, and music.

Coding/Robotics Camps teach basic coding, programming, logic, and robotics design through the use of a Raspberry Pi microcomputer. Kids will build and take home a Raspberry Pi powered robot for further explorations at home.

Registration – ScienceArt Camps - \$155.00

Coding and Robotics Camp - \$255.00

9:00 a.m. to 3:30 p.m. Monday – Friday

Applications available on-line beginning May 10, 2015

Languages spoken: English and Spanish
