OBJECTIVES

California State University, Fresno's *Employee Performance Appraisal and Skill Enhancement Plan* process is based on the belief that employees are our most valuable resource. An individual's performance and development are the prime considerations in determining his/her value and contributions to the mission of the University. The process is designed to improve job understanding and job competency; to provide for mutual goal-setting; to develop staff; to improve communications between supervisors and staff; to reward special meritorious job accomplishments as funding permits; and to identify unsatisfactory performance and counsel employees toward corrective actions.

Performance appraisal must be viewed as a continuing process throughout the year, with a formal appraisal conducted at least once a year utilizing the *Employee Performance Appraisal and Skill Enhancement Plan*. Informal meetings should be held frequently with the employee. The performance appraisal should be a summary of earlier discussions as well as a plan for future development.
