

**Develop a digital monitoring system that indicates which parking spaces are available.**

**CURRENT CHALLENGE:**

Parking lots: excessive circling, idling, and stress.

**PROPOSED SOLUTION:**

Some type of digital monitoring system that indicates, perhaps by row, which parking spaces are available, and displays that information, again by row, for those seeking open parking. Is there an app for that?

**BENEFITS TO FRESNO STATE:**

Parking lots: less circling, idling, and stress.

**ADDITIONAL INFORMATION:**
