

Have the campus daycare provide emergency daycare for students, faculty, and staff.

CURRENT CHALLENGE:

The lack of places a parent/student has when needing emergency daycare for a day or two or for just for couple of hours. Sometimes this becomes a challenge when you as a parent have to struggle with the options of missing a class or work because a situation came up and there is nowhere to leave your child to be watched for a day or a few hours.

PROPOSED SOLUTION:

For the daycare on campus to offer this to the students/faculty and staff with a charge of course.

BENEFITS TO FRESNO STATE:

It will bring more peace to those parents/students that have children and that run into this situations where they can't find daycare for a day or two. This will also help students that are parents to be more productive knowing that they have this service as an option.
