

International Coffee Hour: Bridging Gaps in Intercultural Understanding through Collaboration

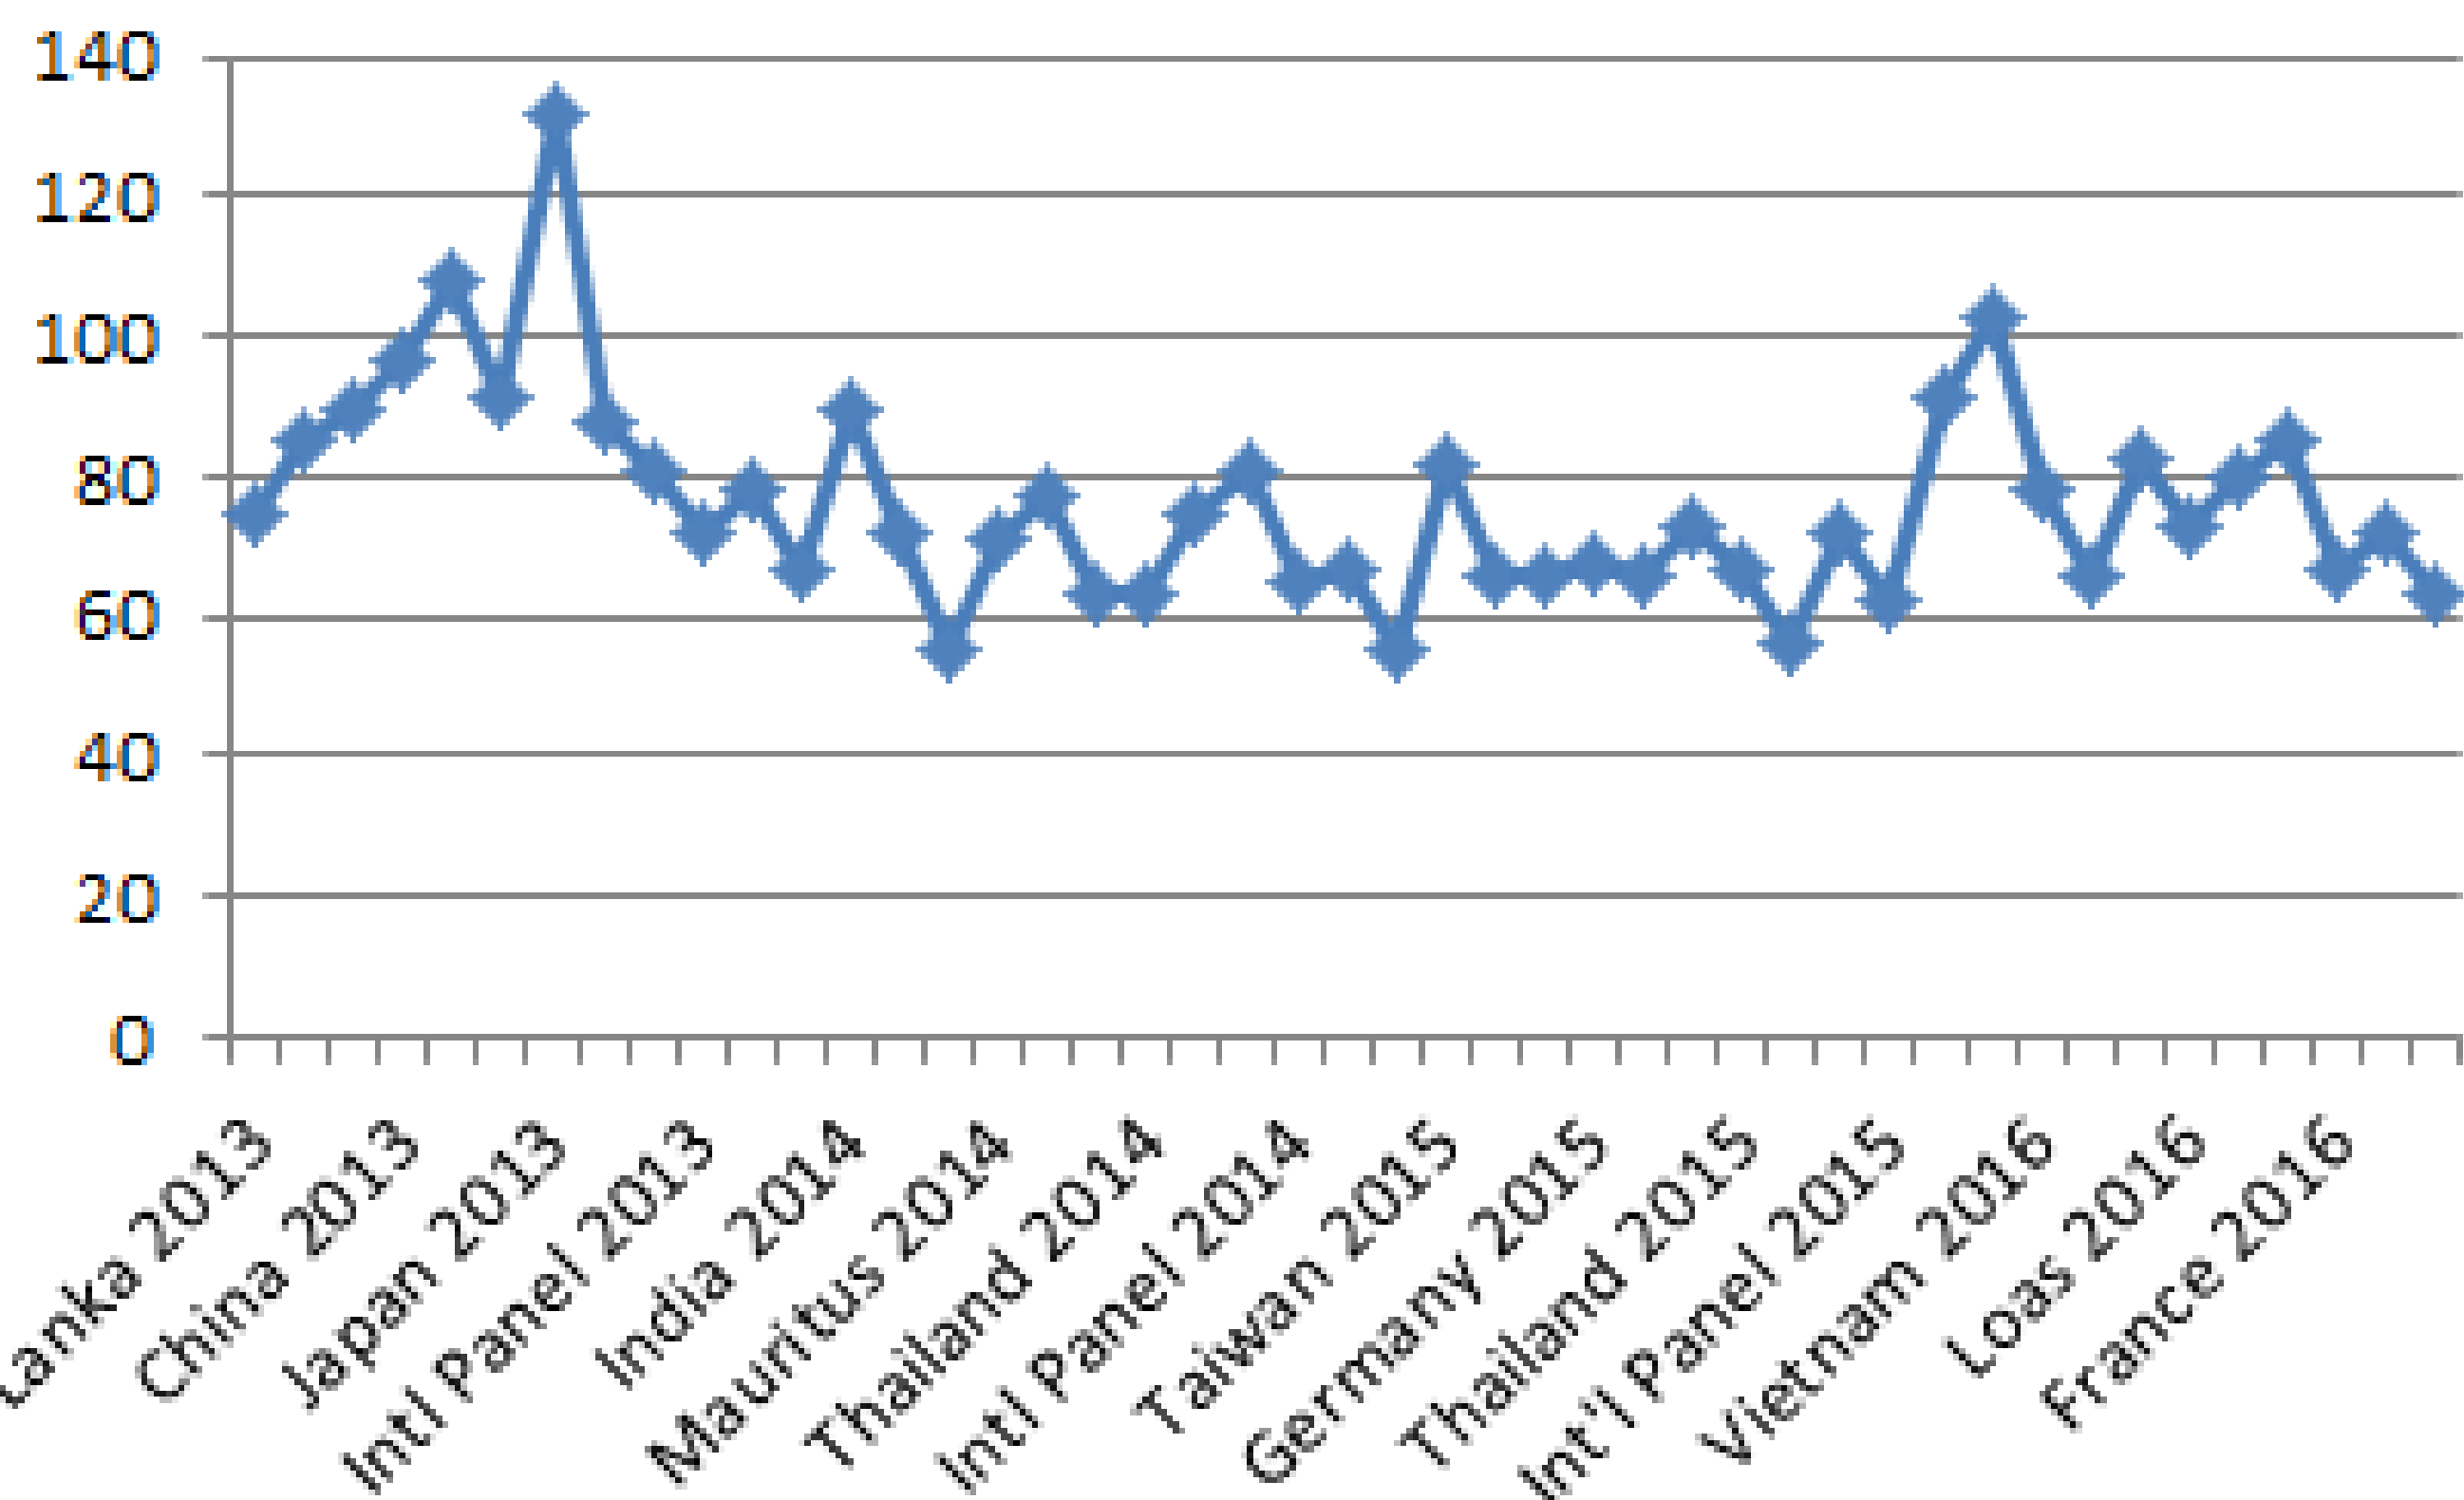

International Coffee Hour (ICH) endeavors to bridge the gaps between academic & student affairs by cultivating partnership & leadership opportunities, while fostering intercultural exchange amid campus & local communities.

Graphic Design/Art students create our ICH weekly posters through collaborative partnerships with faculty.

ICH Attendance Over the Years

New Projects: Expanding our community outreach by partnering with local librarians & hosting additional ICH sessions at local Fresno County libraries

Service Learning participants & professors share their cultural experiences at ICH.

The tradition & innovation of ICH continues as we identify new collaborative partners & library resources not typically utilized in international programming. With the support of the Library Diversity Committee, ISSP provides international & study abroad students with a medium to share their cultural experiences & backgrounds, while participating in professional development activities & connecting with the community.

Student volunteers from around the world make ICH possible.
