

Creating a Healthier Valley

Health professionals are in short supply in the valley. Under director Lilia De La Cerda, the Health Careers Opportunity Program at Fresno State works to develop future doctors to meet the region's growing needs.

A partnership with the UC San Francisco Medical Education Program in Fresno supports medical scholarship, while also building a bridge to one of the world's premiere medical schools. Our program attracts a broad range of students, some of whom never considered careers in medicine until they arrived on campus.

Fresno State is making a healthy difference in the lives of its students and the communities they go on to serve.
