

Musical Connections

Studies show musical training stimulates intellectual development and improves reasoning skills. Music brings our culture to life.

Composers such as Dr. Gary Gilroy, professor of music and director of bands, are eager to share their expertise and experiences with students. This summer Dr. Gilroy will travel to the Beijing Olympic Games to help guide the international Beijing Olympic Orchestra. He will arrange Olympic tunes, Chinese folk pieces and Beethoven selections for more than 2,000 student musicians at various venues.

Through his example, Dr. Gilroy gives Fresno State students the inspiration and instruction they need to make important artistic contributions to the world.
