

# FRESNO STATE

There are at least 22,000 reasons to care deeply about Fresno State. That's how many students are converging on the campus this week, all with one goal: to get a high quality education that will serve a lifetime. Our freshman class of 6,300 is the largest since Fresno State was founded in 1911.

Students followed different paths to get here and

many are the first in their family to attend college. All are welcome because Fresno State is the university of opportunity.

These students are our future teachers, nurses, engineers, scientists and leaders working hard to make their own dreams reality and in turn, we all benefit.

Welcome back, students.
