

## Media

Media can be displayed in one of two ways, either embedded into a page in OU Campus or as a hyperlink to the media. The preferable ways to maintain videos is by using embed code from YouTube or creating a link to a movie from the Fresno State streaming server. (Streaming server accounts can be created for users by filling out a streaming server form from Technology Innovations for Learning and Teaching (TILT.)

**NOTE:** Any media used should have captions or a transcript of the audio to be compliant with Section 508 web accessibility standards.

### EMBED A YOUTUBE VIDEO

1. To add a video to a page, in the WYSIWYG Editor place the mouse in the region of the page where you want the new video to be inserted.
2. In a new window or tab locate the YouTube video you want to use.
  - a) Click on the **Share** button below the video
  - b) **Copy the hyperlink** provided below the Share button
