Computer Science, B.S.

DEPARTMENT

BS in Computer Science, B.S.
MS in Computer Science, M.S.
MN in Computer Science, Minor

REQUIREMENTS

Department

Bachelor of Science Degree - Computer Science Major Requirements

Undergraduate Program

The bachelor's degree in computer science prepares students for careers in the computing industry or for graduate study. Combined with a minor in another field of study, the bachelor's degree allows students to utilize their computing expertise in a variety of specialized fields. The core and computer science theory courses are excellent preparation for students who intend to pursue an advanced degree in computer science.

For the computer science major, the department offers courses that represent both the core of study considered essential to all aspects of computing and advanced study sequences in particular fields of interest. The core classes introduce all majors to the spectrum of thought represented in computing. The advanced sequences allow the individual student to pursue concentrated work within such areas as computer architecture, artificial intelligence, databases, compilers, operating systems, computer science theory, computer graphics, software engineering, programming languages, networking, distributed systems, and parallel processing. The department also offers topics courses to keep students informed of current advances and methods in computing.

In addition to courses designed for majors, the department offers courses intended to introduce computing to nonmajors. These courses will benefit any major who wishes to include computing in their undergraduate study.

Grade Requirements

All courses taken to fulfill major course requirements must be taken for a letter grade. All courses required as prerequisites for a course must be completed with a grade of C or better before registration will be permitted.

Administrative Academic Probation

A minimum Grade Point Average (GPA) of 2.0 must be maintained in all courses taken in the College of Science and Mathematics. Students who fail to maintain a 2.0 GPA in courses within their major may be placed on administrative academic probation. Failure to eliminate the grade point deficiency could result in disqualification from the College of Science and Mathematics.

Bachelor of Science Degree Requirements

Computer Science Major

1. Major requirements (59 units)

   CSCI 40, 41, 60, 112, 113, 115, 117, 119, 144 (35 units)

   Select seven of the following, including one of the sequences (21 units)

   CSCI 124, 126, 130, 134, 146, 148, 150, 152, 154, 156, 164, 166, 172, 173, 174, 176, 177, 186, 188, 191T (max total 6 units)

   Approved sequences:

   CSCI 124-126
   CSCI 144-146 or 144-148
   CSCI 150-152
   CSCI 156-ECE 146
   CSCI 164-166
   CSCI 172-173

www.fresnostate.edu
CSCI 176-177
CSCI 186-188

CSCI 198 or complete an additional second course in one of the sequences above (3 units)

**Additional requirements (10 units)**
MATH 75, 76; PHYS 2A and 2B or PHYS 4A, 4AL, 4B, 4BL

2. **General Education requirements (49 units)**

3. **Other requirements (6 units)**
Upper-division writing and Multicultural and International (MI)

4. **Sufficient elective units to meet required total units** (varies)

5. **Total (120 units)**

* MATH 75 and PHYS 2A or PHYS 4A are used to satisfy the General Education requirements.

** G.E. and MI courses can be double-counted with major requirements. The writing requirement may be met by taking the upper-division writing exam. See advisor for details.

**FACULTY**

The faculty comes from a variety of areas including computer systems and architecture, theoretical computer science, programming languages, software engineering, computer graphics, distributed systems and parallel processing, neural networks, image processing, computer vision, pattern recognition, wireless communication and mobile computing, robot swarm communication, evolutionary computation, domain-specific languages, and real-time and embedded systems. They have in common a desire to provide a program that will give the student a broad range of experience in computer science as well as the depth of education that will be needed in the student's later career, whether professional or academic.

For faculty phone numbers and e-mail, see the campus directory.

For more on the faculty, see the faculty pages.
The faculty pages are updated by the department or program.
