BA in Geography, B.A.
MN in Meteorology, Minor
MN in City and Regional Planning, Minor
BS in City and Regional Planning, B.S.
CERT in Community and Regional Planning, Certificate of Adv Study - Continuing & Global Education

REQUIREMENTS

Department of Geography & City & Regional Planning

Bachelor of Science Degree Requirements

City and Regional Planning Major

1. Major requirements (36 units)

Lower-Division Core courses (3 units)

CRP 80

Upper-Division Core Courses (27 units)

CRP 110, CRP 115, CRP 120, CRP 125, CRP 130, CRP 135, CRP 140, CRP 150A, CRP 150B

Electives in City and Regional Planning or Geography (6 units)

2. General Education requirements (48 units)*

3. Other requirements (9 units)

American Government and Institutions (PLSI 2), Multicultural and International (MI), and Upper-division writing

4. Sufficient elective units to meet required total units (varies)

5. Total units (120)**

* Of the required General Education units, 6 units will satisfy Area D2 (CRP 80) and Area ID (CRP 125).

** G.E. and MI courses can be double-counted with major requirements (See Degree Requirements).

Advising Notes

1. General Education and elective units may be applied to a second major or a minor (see double major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty advisor for further information.
2. Students must regularly consult with their academic advisor. Such consultation will facilitate course selection and enable the student to develop a program consistent with individual interests and needs.
3. The selection of electives within the major should be strongly influenced by career goals, interests in graduate study, and related matters.

FACULTY

Instruction at introductory and advanced levels is conducted by a faculty whose teaching and research interests are diverse. All major facets of the discipline are represented as are a number of specializations, which include medical geography, economic studies of China, urban revitalization, political ecology of natural resource management, environmental monitoring using remote sensing, urban air quality, urban and regional planning, environmental planning, and climate change and global governance.

For faculty phone numbers and e-mail, see the campus directory.

For more on the faculty, see the faculty pages.

The faculty pages are updated by the department or program.
