Webinar Description

Successful Katie A implementation requires counties to collaborate across their child welfare and behavioral health agencies. That means frequent meetings to decide on protocols and procedures, roles and responsibilities, tools, resources and services. This two-part webinar mini-series will take you inside the workings of several small counties as they move forward with Katie A. implementation. Their stories and the lessons learned can help inform the work of all counties, regardless of size.

Learning Objectives

- Attendees will learn ways to build a supportive infrastructure for Katie A. implementation.
- Attendees will receive information about specific resources to help facilitate Katie A. implementation.
- Attendees will understand the challenges faced by small counties and draw parallels with the situation in their counties.
