

Central California Training Academy Practice Implementation Coaching Support

The Coach's role with program implementation may include the following:

Assist in planning implementation process

Model and coach skill set for practice implementation

Support the focus on improvement of the skills used during practice implementation

Train practice modules

Provide coaching, support, application and reinforcement of the training

Coach specific skills and behaviors that strengthen the skills sets for successful application of the practice

Work alongside county leadership and identified county implementation team to support implementation of the practice

Provide feedback to county leadership about practice implementation and observations related to desired outcomes
