

CDDS 175 Internship Plan

1. Interpreting Goals:

What skills would you like to develop)?

- Acquire more sign language vocabulary?
- Increasing processing time?
- Improve fingerspelling production and receptive ability
- Become more proficient in use of classifiers
- Learn how to use sign space more effectively and efficiently

2. Interpreting Objectives:

Convert you goals into a statement of objectives)

1. By the end of internship, the interpreter should be able to
2. Demonstrate higher accuracy with a 3-4 second lag time
3. Fingerspell words 50% with smooth production and not have to restart
4. Use 10 classifiers constructions regularly in sign product
5. Use referents in sign space consistently

3. Target Vocabulary Areas

Based on what you know about your assignment,

- What type of sign vocabulary will you need to develop?
- How would you use classifiers to describe concepts?
- What type of Fingerspelled words and numbers are you likely to face?

4. Time-line for entire internship

- Try to envision what type of skills you will work on to develop and how proficient you will become.
- Think about how much time you will spend in the hot seat at first and how that could increase over the semester
- Consider the amount of skill and ability that you think your mentor will want to see from you to trust that you can have more time in hot seat
