NOTES:

* With approval of Graduate Advisor, a student may substitute courses from other departments for courses listed in Area III. A maximum of nine units may be substituted if it is determined that these courses better serve a student's degree goal.

* Students entering the graduate program with an undergraduate degree in something other than Kinesiology or a related field, will be required to take 9-12 units of prerequisite courses. The prerequisite courses will be decided by the Graduate Program Coordinator according to the student's chosen plan of study and future career plans.
