

Family Clinician & Bilingual Spanish (Part-Time)

Full Circle Family Program

Agency Overview

Founded in 1889, Family Service Agency of San Francisco is the oldest nonsectarian, nonprofit charitable social-services provider in the City and County of San Francisco. Our mission is to strengthen families by providing caring, effective, and innovative social services, with special emphasis on the needs of low-income families, children, and the elderly and disabled people, thus improving the quality of life for all San Franciscans.

Program Description

Full Circle Family Program (FCFP) offers outpatient mental-health services for multicultural, low-income children, ages 4-21, and their families in the South of Market, Tenderloin, Western Addition, and Southeastern districts of San Francisco. FCFP is an innovative child and family-focused program that utilizes evidence-based practices and interventions which have been shown to help youth succeed within the context of their families. We believe that, regardless of the setting in which youth may be exhibiting challenges; the family has the strengths necessary to develop their own goals on behalf of their children. Our focus is to facilitate their success. Thus, our philosophy is truly to honor family strengths, to join with families in developing their own solutions; and to offer support that has significant evidence as to its effectiveness. We reach out to communities in which our youth live and provide services in the location that best meets the needs of the youth and their family.

Job Description

Assess, formulate, diagnose and implement treatment plan and goals for individuals with mental, emotional, or substance abuse problems. Implement therapy and mental health services in accordance with treatment plans; provide family psychotherapy as primary modality and individual and/or group therapy as needed collaterally. Maintain accurate and complete client records for later electronic billing data entry and adhere to legal and ethical issues regarding confidentiality and reporting requirements. Provide safe, supportive environment for agency's clients. Additional duties as needed.

Program Specific Responsibilities

- Assess, diagnose and conduct treatment intervention that is consistent with the treatment plan and goals as developed in partnership with the family.
- Provide family psychotherapy as the primary modality with individual and/or group treatment as determined in collaboration with your supervisor.
- Utilize evidence-based interventions and theories.
- Provide case management, behavioral coaching and crisis intervention as necessary
- Collaborate closely with our community referral sources and partners: schools, county departments, community-based organizations, etc.
- Meet documentation and other deadlines; comply with requirements for Medical/county paperwork.

- Perform administrative tasks within timelines (chart completion, meeting attendance, etc.)
- Outreach into community
- Work 2-3 evenings a week, as needed for families after school and work
- We will be measuring outcomes of our work on behalf of our kids and their families

Minimum Qualifications:

- A minimum of 2 years of related experience with children and families preferred
- Experience with community-based work in schools and in the home
- Masters or doctoral degree in social work, psychology or related fields required, but all encouraged to apply
- California licensure or minimum of 3 years post-Masters clinical experience, preferred
- Knowledge of the evidence-based movement in mental health preferred
- BILINGUAL: Spanish Required
- Strong individual and family assessment skills and proficiency using DSM-IV-R and DSM V desirable
- Working knowledge of Microsoft Word processing; ability to utilize FSA Information Management System
- Strong organizational and time management skills
- Strong communication and interpersonal skills
- Developing skills in understanding and intervening in complex family relationship dynamics
- Background in family systems and structural theory, cognitive-behavioral theory and/or behavioral theory, strongly preferred.
- Have a good grasp of individual and family life cycle development
- Familiarity with S.F. Community Mental Health (county) paperwork is desirable
- Ability be a team player with a welcoming attitude
- Possess a valid CA Driver's license and access of vehicles with proper insurance
