## **PART TIME PARENT-CHILD THERAPIST POSITION**

Quality Family Services, Inc. is looking for a part time unlicensed masters level mental health clinician for their Therapeutic Supported Visitation Program (TSVP). TSVP is a Fresno county contracted program providing court mandated therapeutic supervision to DCFS-involved parents and children participating in the family reunification process.

During visitations, therapists perform the following: Insure parent abides by visitation guidelines. Encourage progress toward family's TSVP goals. Monitor and intervene to insure safety. Encourage appropriate parental nurturance and empathetic engagement. Assist parent in exerting appropriate parental control over children's behaviors. Model appropriate parenting behaviors and strategies. Provide post-session feedback to parent to encourage positive and appropriate parenting behaviors.

In addition, visitation therapists are responsible for regular clinical reports to DCFS and the courts as well as engaging in extensive consultation/collaboration with system professionals, including social workers, attorneys, and foster care providers. On occasion, court testimony is involved.

This is a part-time position, requiring two days per week (Monday and Tuesday). Three Saturdays (9:00 – 2:00) per month may also be required. Individual and group supervision will be provided by a licensed psychologist. There are currently several masters/doctoral level clinicians on the TSVP team and active team collaboration is encouraged in managing this very challenging clientele.

Since 1982, Quality Family Services, Inc. has been providing culturally sensitive community based services to the Fresno community. It also has had a decades long commitment to training psychologists and other mental health professionals.

If interested, submit a letter of interest and curriculum vitae to:

Jeffrey Mar, Ph.D.  
TSVP Clinical Supervisor
