

# MENTORSHIP PROGRAM

Interested in being mentored by a business professional in the local community?

A mentorship gives students an overview of various industries and careers in the business field.

Craig School of Business students can earn credit for this one unit elective

Each mentee spends

during the semester with their mentor, learning about their mentor's company as well as some academic course work related to career planning.

- Attend business lunches and meetings
- Participate in small company projects or training related to your option
- Mock interviews and resume review
- Job shadowing
- Anything that the mentor feels is beneficial to the student

Mentors and students start by creating a SYNERGY profile.

If interested, contact Ken Machoian at [kmachoian@csufresno.edu](mailto:kmachoian@csufresno.edu) to discuss mentorship opportunities and processes.
