

Summer Academy in Science, Technology, Engineering & Mathematics, 2016

Monday, June 20 - Friday, June 24 8:00 am-3:00 pm

for Elementary and Middle and High School Students

- Have a fun filled learning experience through challenging tasks in an enjoyable environment.
- Engage in Science, Technology, Engineering and Mathematics (STEM) activities through hands on projects and collaborative activities.
- Reflect the way you think and feel about learning.
- Learn to use dynamic mathematics software and other visual creation software to explore STEM concepts.
- Improve your reasoning and thinking skills.
- Earn California State University, Fresno Certificate of Accomplishment.
- Meet new friends, expert teachers and university professors at Fresno State.

Dr. Rajee Amarasinghe:

Phone: (559) 278-2992

Elementary school STEM concepts

Build models for scientific exploration and energy suitable for ages 9 - 11. Learn key mathematical concepts such as shapes, dimensions, angles, and area. Investigate 3D objects and explore concepts such as volume and surface area through hands-on projects, activities, real life problems and the use of technology, science and engineering. Appropriate for grades 4-6.

Secondary school STEM concepts

Build models for scientific exploration and energy suitable for ages 11- 14. Learn key mathematical concepts such as ratio, proportions, perspective, area, volume and surface area, congruence and similarity through hands-on projects and activities. Solve real life problems using technology, science and engineering. Appropriate for grades 6-9.

Registration by May 15 \$185*

Registration after May 15 \$235*

*Fees include materials, handouts, morning snacks, lunch, and the use of labs and software.

For additional information, to register or to see last year's workshop activities please go to:
