

Lyles College of Engineering

Summer Engineering Experience 2016
Lyles College of Engineering
California State University, Fresno
June 27 – July 1, 2016

The Summer Engineering Experience (SEE) is a one-week non-residential program scheduled for June 27 - July 1, 2016 at Fresno State. The mission of the program is to educate young students **entering grades 10, 11, and 12 in the Fall of 2016** on the benefits and varied aspects of a profession in engineering. The program focuses on hands-on activities combined with academic lectures that cover engineering topics such as Geomatics, Construction Management, Robotics, and Electronics. In addition to engineering activities, the camp will provide several physical and recreational activities designed to increase leadership skills, gain confidence and experience in a technical environment.

Sessions run from 8:30 a.m. to 4 p.m. each day. Daily attendance is required. Lunch, snacks, educational materials, and field trip transportation are included.

Cost of the program is \$150. Scholarships are available to qualified students. Space is limited. Applications are accepted through March 31, 2016.

Application Requirements:

- Completion of the attached application.
- A one page personal statement written by the student that expresses their passion for science and/or mathematics.
- If the student is requesting a scholarship, include a statement of need in the personal statement and proof of qualifying for free or reduced lunch.
- A letter of recommendation from a current teacher (teacher may submit directly to lcoepathways@csufresno.edu or they may mail paper copy to the address below).
- Current Transcripts (Unofficial or Official)
- Please submit ALL documents as an attachment to lcoepathways@csufresno.edu

This is a non-residential program. Transportation to and from the program is the responsibility of the parents and/or guardians. In order to be considered, students must complete and submit a complete application by the deadline: **March 31, 2016.**
