

PHS

Plant Health Society

Welcomes Guest Speakers:

Dr. Pete Goodell

Dr. Pete Goodell is a Cooperative Extension Advisor, IPM, at UC Kearney Agricultural Research and Extension Center, in Parlier, CA, and involved with the UC Statewide IPM Program. He develops and delivers IPM tactics and strategies to the agricultural community in the San Joaquin Valley. His research involves the development of IPM tactics and strategies to manage insects and nematode pest on field crops including cotton, alfalfa seed, dry beans, and forage. He supports the program of County Farm Advisors by providing expertise and educational support for local farmers and pest control advisors.

Dr. Bruce Roberts

Dr. Bruce Roberts received his PhD in Agricultural Ecology from the University of California (UC), Davis. He is an Agronomy professor at California State University, Fresno, Jordan College of Agricultural Science and Technology, in the Department of Plant Science, Fresno, CA, and the J.G. Boswell Endowed Chair of Agronomy. His primary mission is to encourage students in production agronomy and partners with the agricultural community. He is an active coordinator for the FFA contest, the advisor for AGR, and enjoys working with student projects.
