

Deerpoint Group, Inc.

October 30, 2014

Attn: Chemistry Department

Good Afternoon:

The Deerpoint Group is a growing company specializing in chemical water treatment for agricultural irrigation. The Deerpoint Group serves growers in California, and provides water treatment for all types of crops and methods of irrigation. We are a rapidly growing company and for the ideal candidate there will be room for advancement in the future. Currently we are in search of qualified candidates to fill a few open Lab Tech positions with strong chemistry backgrounds. The laboratory is the "heartbeat" of the company and we utilize new, state of the art instruments.

The ideal candidate would have the qualifications listed below and would be available to start immediately. Please read and forward the below job description to any qualified candidates and your career services center.

Job Description:

The Deerpoint Group is looking for a self-starting individual, who can independently perform routine analyses in a fast-paced agricultural laboratory.

Responsibilities:

- Conduct testing and analyses using established methods to ensure valid results.
- Collect data, perform calculations and prepare reports in accordance with specified procedures.
- Perform special assignments; assisting other technicians, and staff on project work.
- Maintain accurate, thorough, and up-to-date files, logs, and laboratory notebooks for future reference.
- Maintain a clean, safe working environment.

Ideal Candidate Qualifications:

- B.S. in Chemistry, Biology, Agricultural Science, or related field, and one year related laboratory experience and/or training; or equivalent combination of education and experience. Candidates with agricultural laboratory experience are encouraged to apply.
- Able to read and interpret documents such as test methods, operating and maintenance instructions, safety regulations, and equipment manuals.
- Solid mathematical skills to perform calculations such as: standard math functions, percentages, proportions, fractions, dilutions, and scientific units.
- Excellent written and verbal communication skills.
- Proficient in Microsoft Office such as Word, Excel, and Access.
- Hands-on laboratory experience is desired.
- Experience in soil, plant and water analysis utilizing titrations, ICP, Flow Injection, LECO, and colorimetric techniques is a plus.
- Able to manage continuously changing demands and priorities based on the daily operational needs of the company.

Thank you for your time and attention to this request. Please forward any responses to: jobs@thedeerpointgroup.com. If you have any questions or concerns regarding this request please feel free to email me using the information below.

Thank you,
Denise Baker
