

# Ficklin Vineyards

We are looking for a couple of interns who can work Part Time to assist with harvest. As a Port winery, our harvest begins slightly later than most so we expect to begin late next week.

For these two positions, no experience is necessary--but always appreciated. It will be to assist with basic crush activities, such as dumping bins, operating the destemmer, sluicing, pressing, setting up pumps and pumping, barrel downs and clean up.

On this harvest, they will have the opportunity to work alongside Peter Ficklin. We have quite a bit of flexibility with hours.
