

Internship Opportunity

Grapery is a table grape production company located in Kern and Tulare Counties founded in 1996. The strategic focus of Grapery is to deliver outstanding flavor to our customers consistently. Grapery produces several unique proprietary varieties such as Cotton Candy, Flavor Promise, MoonDrops and Tear Drops. We maintain an extensive testing program for new varieties. Projected production for 2016 is 2.3 MM packages.

Grapery is offering an internship opportunity for a current student in viticulture interested in learning about table grape production.

Job Description

The goal of the internship is to expose the student to many aspects of table grape production. The intern will coordinate all activities with Jack Pandol (founder/production manager). The student will be assigned to one production property primarily to be exposed to every operation (labor, nutrient management, irrigation, fertigation, pest and disease management, harvest, post harvest). The student will have the opportunity to perform operations as well as monitor them. The student will monitor all aspects of production and report observations.

Qualifications

- A strong desire to excel and produce leading edge products
- A self motivated person that can generate new ideas independently
- Must be well organized
- Must be able to communicate clearly both verbally and in writing
- Must have a spirit of teamwork and genuine care for other employees
- Basic understanding of table grape production practices, plant nutrition, soils, pest management and irrigation management
- Basic verbal and writing competence in Spanish is desirable.
- Basic competence in Excel, general computing and wireless communication.

This is a paid internship. Pay level will be negotiated. A vehicle will be provided as necessary.
