

## EDEN RIFT VINEYARDS

Position: Harvest Intern

Dates: Late August – Mid November

This is a great opportunity to be part of a small team that is in the process of transitioning an existing winery over to Pinot Noir and Chardonnay. Located in Hollister, CA, we are launching our new brand from our 2016 vintage, all from estate fruit. The estate currently has 90 acres planted, much of which will be grafted over to Pinot and Chardonnay this year, with additional plantings of Pinot Noir coming on in the next two years. We also have an operating olive mill on site.

We are looking for a few experienced interns who will get hands-on experience with everything. Candidates will have an eye for detail, an inclination for making quality Pinot and Chardonnay, not afraid to get wet or dirty, and a good team ethic.

Job duties include, but not limited to:

- Processing and sorting fruit
- Fermentation management
- Lab analysis
- Additions
- Operating destemmer and press
- Barrel work
- Vineyard sampling and more, if desired
- Sensory analysis

Hours vary depending on harvest, but there will be long days. Must be able to lift 50+ pounds and maintain a good attitude in a positive atmosphere. Positions start mid to late August, and can go through to the end of October or mid-December, if there is interest in olive oil production. There is also a chance for a permanent position in the cellar.
