

Under the direction of the small winemaking team, the harvest interns will gain a rich experience working in all aspects of the winery. Our interns will get to participate in assessing grape ripeness of vineyard samples, crushing, monitoring fermentations (including pumping over tanks, sensory analysis, brix and temperature analysis), pressing, lab analysis (pH, TA, SO₂), and barrel topping. You will gain valuable, hands-on experience as you help us produce great wine!

Tasks will include, but are not limited to:

- Analysis: Brix, free SO₂, pH and TA analysis
- Processing grape samples and performing analysis (brix, pH, TA)
- Performing additions and inoculations
- Daily fermentation monitoring including brix, temperature, and sensory evaluation
- Assisting with cellar operations including crushing, pump overs, pressing, racking, and barrel topping
- Keeping accurate and organized records

Title: Harvest Intern
