

Portfolio: assignment and rubric

EHD 170ECE, final student teacher

Combination of Assessment and Professional types on page 72 in ²text
Portfolio types: Interview and Pre -¹BTSA

Content Criteria

One reflection for each of the six domains/standards of the *California Standards for the Teaching Profession* (total of 6 reflections). Reflection can be written using the Past, Present, Future model.

One example of supporting evidence for each element for each standard.

Clear connections from evidence to elements.

Organization and Presentation Criteria

Title/cover page, table of contents, visible tabs, neat, organized, typed, grammar/spelling.

Six sections, one for each domain of the *California Standards for the Teaching Profession*.

Clear connections from artifacts to elements (example of “Tooth Traditions” on page 87 in ²text)

	Content	Organization and Presentation
inadequate	Meets less than half the requirements.	Looks careless and/or hurried, parts illegible. Multiple grammatical and stylistic or spelling errors.
satisfactory	Each domain has a reflection and at least two elements supported with evidence.	Content is typed but presentation appears unprofessional. Some errors in grammar and/or spelling but not interfere with clarity.
strong	Insightful reflections for each domain, with at least four elements supported with evidence. All artifacts clearly connected to elements.	Clear, uncluttered and attractive. Easy to find specific information. Few grammatical and/or stylistic or spelling errors.
outstanding	All domain reflections demonstrate growth and learning from experience, feedback and readings. All elements are addressed in each domain and are supported with strong examples of evidence that clearly exemplify the element.	Evidence that pride and care was taken and the message of product is clearly defined. Nearly error-free which reflects clear understanding and thorough proofreading. Very user friendly.
