

## EHD 174ECE: Field Study A

### Scoring Field Study Assignments

All assignments for EHD 174ECE are scored credit or no credit. Credit is given for assignments that are successfully completed as specified in the EHD 174ECE Field Study Guide and EHD 174ECE Competencies. Work must be submitted according to the dates listed in the course schedule in the EHD 174ECE Syllabus.

Because all EHD174ECE lesson plans, reflections and case study activities are also used to meet requirements for LEE 173, please see that course for how these assignments are graded.

In EHD 174ECE, Students are also systematically observed by the instructor in teaching their lessons to students and given regular written feedback on how well their lessons met the standards, competencies and TPEs.
