Dr. Paul Beare, Dean
Kremen School of Education and Human Development
California State University, Fresno
5005 N. Maple Avenue
Fresno, CA 93740

Dear Dean Beare:

I am pleased to inform you that positive reviewer feedback was received on your subject matter programs' responses to the English and Mathematics alignment matrices. Responses to the alignment matrices document how programs are addressing the integration of the Common Core State Standards (CCSS). The reviewers deemed that your submissions meet the Commission's standards and expectations for assuring that candidates are being appropriately prepared by your programs in the English and Mathematics subject matter knowledge required to effectively instruct K-12 students in accordance with the CCSS.

Your institution's English and Mathematics subject matter programs have now completed the process to align to the CCSS and are approved to continue operation.

Should you have any questions, please contact Erin Sullivan, Consultant, at esullivan@ctc.ca.gov.

The Commission and its staff are grateful to California State University, Fresno for its commitment to the preparation of professional educators.

Sincerely,

A handwritten signature in cursive script that reads "Teri Clark". The signature is written in black ink and is positioned above the typed name.

Teri Clark, Director
Professional Services Division
Commission on Teacher Credentialing
