

Professional Learning Communities Authors & Experts
RICK AND BECKY DUFOUR
BACK IN FRESNO THIS JANUARY

REGISTER NOW!

This special two-day workshop on Professional Learning Communities is an outstanding opportunity for Valley education leaders to learn from the DuFours about the practical application of PLC's. The DuFours will lead the full two-day event, providing concrete links between effective PLC's and improved student learning and strategies for implementation and intervention. You will leave with materials and strategies to implement right away. This is ideal for site-based teams and district teams.

Rick and Becky DuFour
