

Mathematics & Technology Mini-Conference

Friday/Saturday October 2-3, 2015

SAN JOAQUIN VALLEY

Mathematics
PROJECT

Friday Evening Keynote Speaker: Joe Marquez

Joe Marquez teaches science at Alta Sierra Intermediate School within the Clovis Unified School District. Joe also serves as an Instructional Technology mentor for teachers wanting to increase their effectiveness in the use of technology.

Joe Marquez is a Central Valley Computer Using Educators (CVCUE) Board Member and the 2014 CVCUE teacher of the year recipient. Joe was recently featured in the "We are Fresno" series on NBC KSEE24 for his unique use of technology in his class.

Come ready to be energized and inspired as Joe shares about the need for the use of technology, appropriate uses of technology to communicate and collaborate with students and colleagues, his personal story and uses of technology, how you can get started, and some favorite free apps that build a sense of community and cooperation.

Generous support was given by the Mathematics and Science Teacher Initiative (MSTI) at Fresno State, and the Fresno County Office of Education.

Location: Fresno State

Date: October 2-3, 2015
