Summer Youth Technology Institute

June 12th – 23rd, Monday- Friday

The Youth Technology Institute is a 2 weeks course, taught Monday through Friday, using the latest technology, software, and equipment.

Registration Fee: \$25

Location: Fresno State

Time: 9 AM – 12 PM

Each class is limited to 20 students to maximize individual attention and to allow adequate time for practice. Learners will develop skills in technology, as they explore and problem solve with hands-on activities.

NASA is developing the capabilities to send humans to Mars by 2030—within our lifetime! Join us as we explore the challenges of life on Mars. Students in the Summer Youth Technology Institute will learn about the applied sciences of a journey through space to Mars while also having fun as an “astronaut.”
