

Always use **Bulldog B.A.R.K.** in conjunction with your **General Catalog** and the current **Class Schedule**.

YOUR CATALOG YEAR

You need to purchase and keep a copy of the 2005-2006 **General Catalog**, or you can access it online. As long as you maintain continuous attendance (attend a CSU System school or a California Community College at least one semester of every **calendar** year), this catalog is the one you will use to determine your graduation requirements.

Continuous enrollment begins when you have graduated from high school and enroll in any California Community College (CCC) or California State University (CSU). You maintain continuous enrollment as long as you register one semester (or two quarters) of each calendar year (not school year). Enrollment through Extended Education or Open University does not count toward continuous enrollment.
