

What is a Learning Community?

A Learning Community gives you the opportunity to take two or three classes with other first-semester freshmen just like you.

Five top reasons to sign up for a Learning Community...

1. Get preferred enrollment in Learning Community courses
2. Make new friends, get connected, and enjoy college more
3. Learn more and do better in classes
4. Participate in study groups and work with others who share your academic interests
5. Graduate on schedule

How do you enroll in a Learning Community?

To successfully register for a set of Learning Community classes, you must enter the class numbers of each section of the cluster in the order they are presented on the Learning Community sheet. Submitting only one of the two classes in a Learning Community will result in an error. For a listing of Learning Community courses, please consult the current Learning Communities brochure available at **DOG DAYS** or contact the Office of Advising Services (559.278.1787).
