

CSU Guiding Principles Addressing Student Alcohol Abuse

Each member of the community has the responsibility to prepare for alcohol abuse incidents involving our students by engaging in the following activities:

Principle # 1: Provide a safe and secure environment for all students.

Principle # 2: Encourage student health and wellness in an environment supportive of learning.

Principle # 3: Promote healthy choices for students.

Principle # 4: Enforce laws and policies consistently concerning the use of alcohol.

Principle # 5: Support safe, legal, responsible, moderate consumption of alcohol for those who choose to drink; do not punish responsible, legal behavior.

Principle # 6: Encourage students to take responsibility for each other; Good Samaritan behavior should be supported and recognized, and students should be supplied with the tools to help others practice safe and responsible behavior.

Principle # 7: Provide assistance, if appropriate, to those students who need support, treatment, and service.

Principle # 8: Involve students in all steps of the process and program development.

Principle # 9: Focus alcohol abuse prevention efforts on campus and community environments since the university is part.
