Q: I transferred in with a G.E. certification. Am I done with my G.E.?

A: Not necessarily. If you are a California Community College transfer with a **full General Education certification**, you will need to take additional G.E. courses (upper division) at Fresno State. If you have a **partial G.E. certification**, you will need to take additional lower division and upper division G.E. at Fresno State. Even if you are transferring from a four-year school, you may need additional G.E. courses. Consult your academic advisor for further information.
