## **Vintage Days Crafts Faire Liability Insurance**

According to Executive Order 829, the California State University Office of the Chancellor requires all exhibitors to show evidence of adequate liability insurance coverage by furnishing to the University a certificate of insurance that includes additional insured endorsements. Because of the nature of the Vintage Days Crafts Faire, the University Risk Management Office has agreed to make exceptions to this requirement.

As such, once applications are submitted, each application will be reviewed by the University's Risk Manager to determine, based on the products to be sold, if a certificate of insurance will be required. Most products offered for sale during the Vintage Days Crafts Faire will fall into the category of *little risk* and the insurance requirements will be waived.

***Certificates do NOT need to be obtained and sent with the initial application.*** If any exhibitor's products are determined by the University's Risk Manager to be a greater risk, those exhibitors will be notified and will be required to provide a certificate of insurance as described below.

It is suggested that all exhibitors submit an application as soon as possible to ensure any issues relating to insurance are resolved in a timely manner.

### **Insurance Requirements:**

Business or homeowner's insurance is acceptable as long as all certificates of insurance include the following:

- Provide for thirty days advance written notice to the University of cancellation of any of the insurance coverage
- Provide for Acceptability of Insurers rating, AM Best – AVII or equivalent unless otherwise agreed by the University
- Name the State of California, the Trustees of the California State University, the campus and the officers, employees, volunteers and agents of each of them as additional insureds, except for professional liability and workers' compensation insurance
- General Liability: comprehensive or commercial with minimum limits each occurrence \$1,000,000; General Aggregate \$2,000,000
- Workers' Compensation: as required under California State law
