

Andrew Raymond

Who he is:

Andrew was born and raised in Bakersfield CA, where he worked at a small Civil Engineering and Land Surveying firm for 7 years before resigning to pursue his education. He graduated from Bakersfield College in 2020 with associates in Engineering, Physics, and Mathematics. In fall of 2020, he transferred to Fresno State, where he is currently a senior majoring in Mechanical Engineering.

Personal Interests:

He is a huge fan of all things Star Wars and loves to play board games and tabletop games. He is also a fan of Legos and has a huge collection of Lego Star Wars sets.

Summary of Internship:

Andrew's role at NORESO is the Engineering Intern. Much of what he does is walking the sites with Project Managers, observing what is involved in the construction process and how information is communicated between Subcontractors, Contractors, Project Management, Regulatory Officials, and the Client. Recently, he has been involved in drafting plans and exhibits for installation of new building automation control units.
