Desired Majors: Rising Sophomore, Juniors, Seniors and Graduate Level Students preferred. Entomology, Pest Management, Biology, Viticulture, and Plant Science.

The United States Department of Agriculture (USDA) Agriculture Research Service (ARS) is seeking a student for an internship opportunity with a Research Entomologist at its location in Parlier, CA. The USDA ARS is the principal in-house research agency of the USDA. Additionally, its research focuses on solving problems affecting Americans every day from field to table.

To be eligible for this position, applicants must:

- Have a minimum 3.0 GGA (on a 4.0 scale).
- Be enrolled in a degree program (AA/AS, BA/BS, or Masters) at an accredited higher education institution.
- Students graduating this May 2019 will also be considered.
- Be a United States Citizen.

To be considered, email your resume to mark.sisterson@ars.usda.gov by no later than Friday, April 17, 2019. Add “Summer Internship” in the subject line of the email.

For more information on the internship position; pay; and start date, please contact: mark.sisterson@ars.usda.gov.

Internship Details

Location: Parlier, CA.

Desired Majors: Rising Sophomore, Juniors, Seniors and Graduate Level Students preferred. Entomology, Pest Management, Biology, Viticulture, and Plant Science.

Skills Required:

The incumbent will assist with research on three cornered alfalfa hopper, vine mealybug, and/or glassy-winged sharpshooter. Most of the duties will involve taking care of plants, counting insects, creating cages, and other projects. During the academic year the intern will be able to participate part time e.g. max of 20 hours per week. This is a full time internship during the summer months.
