## Roadmap B.S. in Mathematics: Integrated Credential option - AY 2022-2023 For Transfer Students

This guide is an unofficial document intended to be used for advising and course planning. This document cannot be used to waive or supersede requirements listed in the catalog. Fulfillment of all University requirements (including required units) will be determined by the office of the Registrar.

This guide assumes that the student has satisfied and transferred from community college all of the lower division GE requirements, and the following courses: MATH 75, 76, 77, 81; and PHYS 4A $+4 \mathrm{AL}^{0}$ and CSCI 40. All of these courses are required for the Mathematics major.

[^0]:    ${ }^{0}$ PHYS 4A and 4AL (lab) are required for the this option.
    ${ }^{0}$ MATH 123 double counts for the major requirements and the General Education area IB requirement (for the Integrated Credential option only).
    ${ }^{0}$ ANTH 105 W is required for this option; it satisfies the upper division Writing Skills Requirement and the campus MI requirement.
    ${ }^{1}$ It is suggested to take MATH 81 before taking MATH 152.
    Advising note: Upper Division GE courses, MATH 101 and MATH 143 are also offered during summer sessions. Students should meet with their academic advisor from the Department of Mathematics at least once per year.
    Students in this option should consult with a credential advisor in the Department of Mathematics early in their first semester at Fresno State. Students need to apply to the Single Subject Credential Program during the semester before taking CI courses, and need to take the CBEST test before applying to the Credential Program. Also, students are expected to attend an orientation meeting before they have access to enrolling in C1 151 and CI 152.
