## Roadmap B.S. in Mathematics: Statistics option - AY 2022-2023 For Transfer Students

This guide assumes that the student has satisfied and transferred from community college all of the lower division GE requirements, and the following courses: MATH 75, 76, 77, 81; and at least one of PHYS 4A or CSCI 40. Note that both of these courses are required for the mathematics major. Besides satisfying the major requirements and GE requirements, students also need to earn at least 120 units in total.

Advising note: Upper Division GE courses and MATH 101 and MATH 143 are also offered during summer sessions. Students should meet with their academic advisor from the Department of Mathematics at least once per year.

[^0]:    ${ }^{0}$ PHYS 4 AL is not required for this option in the math major. If students wish to include PHYS 4 A as a General Education Breadth course, they must also take PHYS 4AL.
    ${ }^{0}$ Consider taking ANTH 105W (UD MI) or ANTH 116W (UD GE ID) to satisfy your upper division Writing Skills Requirement.
    ${ }^{1}$ It is suggested to take MATH 81 before taking MATH 152.
    ${ }^{1}$ Taking MATH 116 before taking MATH 151 has been found beneficial.
    ${ }^{1}$ Taking at least one of the courses MATH 161, 128, or 165 before taking MATH 171 has been found beneficial.
    ${ }^{2}$ The MATH Electives for the STATISTICS option are: MATH 106, 107, 193C. Two courses from the following list: MATH 105 , $108,109$. *Plus one additional MATH elective (any 3-4 unit mathematics course, upper division or graduate, excluding MATH $100,102,133,134,137,138,139$. Special conditions apply for graduate courses. Meet with your advisor from the Math Department to plan your MATH electives.)
