## Regulations for Independent Study

1. Independent study is offered to give the student experience in planning and outlining a course of study on the student's own initiative under departmental supervision. Independent study should deal with a special interest not covered in a regular course or with the exploration in greater depth of a subject presented in a regular course. In some departments, a 190 (upper-division) or 290 (graduate) course may be desirable preparation for the thesis or other advanced study. In addition, some departments have a 90 (lower-division) course.
  2. Maximum credit of 6 units in independent study (190) courses is allowed toward the bachelor's degree and maximum credit of 6 units in independent study (190 or 290) courses is allowed toward the master's degree. Credit is limited to a maximum of 3 units per semester. Under extraordinary circumstances more than 3 units of credit per semester may be allowed on petition to the Department Chair.
  3. To be eligible for independent study, a student should have an overall grade point average of 3.0 or higher. This requirement may be waived in exceptional cases, when approved by the Department Chair.
  4. Independent study projects must be supervised by regular, full-time faculty members.
  5. The following steps should be taken during the student's enrollment in independent study:
    - 5.1 Independent study forms and copies of the current regulations may be obtained from department or school offices.
    - 5.2 An eligible student desiring to register for a 190 or a 290 course must first obtain the consent of an instructor who will guide the project and the chair of the department in which the course is given. This approval form, indicating the nature of the project, must be completed and signed by the instructor and the department chair before registration can be completed. The signed form should be filed in the Department Office.
    - 5.3 A Student may register for a 90, 190, or a 290 course during registration appointment periods and open registration.
    - 5.4 When the independent study project is completed and a written report is submitted and approved, the instructor is responsible for submitting the grade.
  6. Supervision of an independent study project is the responsibility of the department. Departmental committees may be created for this purpose.
  7. Where a written report or paper results from an independent study project, a copy must be filed in the Department Office. The Department Chair may approve for placement in the college archives meritorious independent study papers submitted to him/her/them by the supervising instructor. Only the original copy needs to be presented for such approval.
